WHS Policy Statement

We design, construct and project manage interiors that improve business collaboration and increase overall asset value. We integrate our unique Intelligent Consulting™ process with commercially proven capabilities to deliver cost-effective, inspiring and valuable spaces.

We consider the health, safety and welfare of all people employed by us or those affected by our operations are our top priority. We are committed to ensuring that our workplaces are safe and without risk to health, safety and welfare of all our employees, contractors, visitors and clients. We actively promote the maintenance of a work environment free from harm.

We are committed to consulting with our employees and external service providers on all matters that may affect their health, safety and welfare. We will provide necessary resources to ensure that the workplace is safe and without the risk of harm to any person working for and/or on behalf of us.

Our WHS Policy strives to:

- Develop, implement and maintain an Integrated Management System that complies with the requirements of national & international standards, applicable health & safety legislation, regulations, codes of practice and industry best practice;
- Achieve and maintain an accident free workplace.
- Include health and safety consideration in all business planning activities;
- Consult with interested parties on matters involving health and safety;
- Provide continuous program of information and training to ensure our employees and external service providers work in the safest possible way;
- Ensure all systems of work used are safe and meet or exceed the minimum standards;
- Set up and monitor a system for identifying, assessing and eliminating or controlling all actual and potential hazards related to our undertakings resulting in continual improvement of our IMS system;
- Investigate all incidents, accidents and near misses to ensure future accidents can be prevented;
- Establish systems to monitor, review and evaluate our WHS performance by setting and periodic review of strategic objectives and targets;
- Create a culture that encourages employees and external service providers to actively participate and assist us to provide a safe and healthy work environment.
